Trim	20	Look for glue on trim		

DELIVERY CHECKLIST & SETUP

Type	#	Description	✓	Remarks
Trim	21	Trunk and frunk rubber gasket glue		
Mechanical	22	Check battery and engine coolant lines for leaks, proper connections, support and no interference with drive axle and/or suspension		
Mechanical	23	Check fluid levels inside maintenance panel in frunk		
Mechanical	24	Provide wheel alignment printout to provide evidence it has been done and is within specs		Give advance notice to arrange this
Mechanical	25	Wheel balance weights should be no more than 3oz of stick-on weights on either inboard or outboard. If exceeded, then tire needs to be remounted on wheel to minimize the balancing weights (called "match mounting"). If it can't be done, then a new tire or wheel, or both, are needed		What is Match Mounting? https://www.motor.com/magazinepdfs/042008_09.pdf
Lights	26	Check to ensure all exterior lighting is functional (headlights, taillights, brake lights, turn signals, etc.)		
Operation	27	Approaching with paired mobile key causes vehicle to unlock (various angles)		
Operation	28	Unlock vehicle with non-paired key and make sure it recognizes main driver's face		
Operation	29	Trunk and frunk open/close		
Operation	30	Open/Close frunk multiple times to ensure smooth operation using FOB, from inside the car, and using app		
Operation	31	Full test drive with rep before leaving Center		

DELIVERY CHECKLIST & SETUP

Type	#	Description	✓	Remarks
