

OUTSIDE CAR CHECK LIST	Requirement	Status	Remarks
All trim to be flush	Must have		
Check panel/door gaps	Must have		
Trunk alignment and clearance at bottom – Sharp Edges? Marks?	Must have		
Frunk alignment and gap	Must have		
Rear door seals	Must have		
Check to ensure all exterior lighting is functional (headlights, taillights, brake lights, turning signals, etc.)	Must have		
Check battery and engine coolant lines for leaks and for proper connections and support (no interference with drive axle and suspension) Recall Item.	Must have		
Check fluid levels inside maintenance panel in frunk	Must have		
Trunk and frunk open/close	Must have		
Provide wheel alignment printout. All wheel alignment machines do this, so I want to have evidence that it was done and is within spec. (Give them advance notice to arrange it)	Must have		
Inspect wheel balancing weights to ensure that no more than 3 oz of stick-on weights on either inboard or outboard are exceeded. If exceeded, then they need to remount the tire on the wheel to minimize the balancing weights (procedure called match mounting). If they can't do it then, then that calls for a new tire or wheel, or both.	Nice to have		
Make sure all door handles respond to pushing/pulling	Must have		
Approaching with paired mobile key causes vehicle to unlock (various angles)	Must have		
Unlock vehicle with non-paired key and make sure it recognizes main driver's face	Must have		
License Plate attachment – proper screws and tightness	Must have		
Alignment of glass	Must have		
Quality of glass	Nice to have		
Scratches on glass?	Must have		
Look for paint swirl marks and dust divots	Must have		
Look for paint pig tailing (happens from sanding out contaminants)	Must have		
Look for polishing compound (i.e. wax) on trim edges	Must have		
Look for glue on trim	Must have		
Make sure trim is flush to body	Must have		
Look for paint overspray on trim (usually very small spots)	Must have		
Make sure trim is attached to wheel well	Must have		
Check door, frunk, trunk openings for places where repaint overspray got under tape	Must have		
Look for taped edges that are sharp on repaints	Must have		
See if door cross/mid trim (between widow and door panel) is not loose.	Must have		
Open/Close “Frunk” multiple times to ensure smooth operation using Fob and also from inside the car.	Must have		
Trunk and frunk rubber gasket glue and alignment	Must have		
Full Test Drive with Rep before leaving Center	Must have		

INSIDE CAR CHECK LIST	Requirement	Status	Remarks
Check AC temp in vents with thermal probe (on Amazon for \$10) Temp should be between 40 and 45 deg. F steady state both front and back vents.	Nice to have		
Monroney sticker should be in car	Must have		
Hardcopy of Owner's Manual and screen cleaning cloth are in Glovebox.	Must have		
Rear and side mirrors fully adjustable and side mirrors fold in and out.	Must have

Mobile Key setup on Lucid App:	Must have		
Key Card vs Key Fob vs Mobile App (iPhone) for Locking/Unlocking (all on person)	Must have		
Setup second driver profile	Must have		
Setting up Profiles for Key Fob and Mobile Key			
What does Valet need -Key fob or Key card?	Must have		
Setting Up Lucid App and proper charging procedure with Electrify America (EA Account Setup)	Must have		
Facial Recognition Profile Setup	Must have		
Setup Alexa Voice Command	Must have		
Login to Tidal	Must have		
Where is my Sirius/XM radio number	Must have		
Instructions for Hard and Soft Resets	Must have		
Reboot sequences: power the car down and back up to check screen loading	Must have		
Instructions for Setting Up Homelink	Must have		
Navigation Setup	Must have		
Set Upper Nav Screen to 3D and lower to 2D	Must have		
Window shades operation fully functional	Must have		
Check Surround View for Parking Assistance	Must have		
Check Both Front Seats Heat and Cool Ventilation	Must have		
Check Seatbelt Retraction and Height Adjustment - All Seats	Must have		
Check Air Vents Adjustability	Must have		
Check Windshield Wipers - Proper Seating and Operation	Must have		
Adjust the Side Bolsters all the way in and all the way out to see if any “popping” noise	Must have		
Massage Seats – Try the Deep Setting on Level 1, 2, and 3 to see if any difference?	Must have		
Do all the vents blow air, and can all of them be adjusted – front and rear?	Must have		
Do all seat belts work?	Must have		
Do all window switches work?	Must have		
Check operation of all inside door latches.	Must have		
Check all interior, puddle, glove box, storage bin, reading, frunk, trunk lights.	Must have		
Headrest adjustment.	Must have		
Lumbar adjustment.	Must have		
Window shades/visors	Must have		
Door lock and unlock from inside – all doors	Must have		
Auto headlights	Must have		
Auto high beam	Must have		
Mirror dimming	Must have		
Adjusting interior light levels	Must have
