

# SCE Charge Ready

## Thinking about electric vehicle (EV) charging for your business?

Southern California Edison has approved the largest EV charging make-ready program to date with \$439 million funds available. **This funding will cover the cost of the make-ready infrastructure and provide a rebate towards for the purchase of the stations.**

SCE Charge Ready is first-come, first-serve, and requires some prior evaluation and approval. If you are interested, make sure to apply as soon as possible!

## Eligibility requirements

To be eligible to receive funding for the SCE Charge Ready program, applicants must own, lease or manage a property located in SCE service territory or have property owner consent to apply. Single-family homes are not eligible for this program.

Eligible property types include: Multifamily, Cities/Counties, Workplace, Education, Retail, Industrial, Fleet, and more.

## Program options

There are three options available through this program. Your property profile will determine which program works best for you.

### Charging Infrastructure & Rebate:

- + 4 or more ports: from \$725-\$2,900 per AC port or \$10,050-\$40,200 per DC fast charger.

### Turnkey Installation:

- + Must be a multifamily property located in a disadvantaged community. SCE will cover the cost of the entire project and own and operate the charging solution on behalf of the property.

### New Construction:

- + Must be a multifamily development that received Certificate of Occupancy after 01/01/2017
- + Rebate up to \$3,500 per single-port station or \$7,000 per dual-port station.

ChargePoint® equipment is on SCE's Approved Product List and qualifies for any rebates from the utility. ChargePoint is a leader in EV charging solutions and has installed over 19,000 ports in SCE's service area with an intelligent portfolio of hardware, cloud services and support that ensures great driver and site host experiences.
